IABS Newsletter – N°3

www.iabs.org

SEPTEMBER 2024

[President Column](#) - [IABS Upcoming Events](#) - [IABS Past Events](#)

Welcome to the **third edition** of the IABS Newsletter.

We are pleased to resume our communications after the summer break, a time conducive to reflection and preparation for the challenges ahead.

The goal of the newsletter is to share headlines or brief reports with links to **in-depth articles** or supplemental text for individuals interested in the topic or seeking additional information.

We are open to any and all suggestions related to newsletter content. Feel free to send any comments to secretariat@iabs.org.

Newsworthy articles for future editions are also welcome.

IABS Meetings Recent Outcomes

Global Availability of Critical Reagents for Biologicals Testing. Current Status, Challenges and Possible Solutions.

Meeting Report: Global Availability of Critical Reagents for Biologicals Testing. Current Status, Challenges and Possible Solutions.

- [Meeting Report](#): The Role of Real-World Evidence for Regulatory and Public Health Decision-making for Accelerated Vaccine Deployment
- [Workshop Report](#): Ethical Approval for Controlled Human Infectious Model Clinical Trial Protocols
- [Meeting Report](#): 4th Controlled Human Infection Model (CHIM) Meeting, CHIM Regulatory Issues
- [Meeting Report](#): 4th Controlled Human Infection Model (CHIM) Meeting – CHIMs in Endemic Countries
- [Meeting Report](#): Enabling the Evaluation of COVID-19 Vaccines with Correlates of Protection
- [Stakeholder Meeting Report](#): Regulatory Workshop on Challenge Strain Development and GMP Manufacture
- [Meeting Report](#): Standards for Fecal Microbiota Transplant : Tools and Therapeutic Advances

Upcoming Events

SAVE THE DATE : Avoiding Antimicrobial Resistance: Veterinary use of Phages for Prevention, Therapy and Control of Bacterial Infections

November 19-20, 2024
Virtual Meeting

[Learn more](#)

SAVE THE DATE : Vaccination and Surveillance for HPAI in Poultry : Current Situation and Future Perspectives

October 22-24, 2024
Paris, France

[Learn more](#)

SAVE THE DATE :
**IABS 10th Annual Statistics
Workshop**
November 2024
Rockville, U.S.A

[Learn more](#)

SAVE THE DATE : 4th Conference on
**Next Generation Sequencing for
Adventitious Virus Detection in
Biologics for Humans and Animal**
December 3, 4 & 5, 2024
Frankfurt, Germany

IABS Call for Volunteers

IABS is an organization run by volunteers and a small staff in Lyon, France. As such there are opportunities on Committees that available to interested parties. If you would like to receive further information, please contact our secretariat by email: secretariat@iabs.org

[More informations](#)

Biologicals: IABS Scientific Journal

Biologicals is a scientific journal that provides a modern and multidisciplinary international forum for publishing peer-reviewed original papers, reviews, and letters relevant to regulatory science as it relates to the development, production, quality control, and standardization of biological products for human and veterinary products derived from novel and established biotechnologies.

Our vision is to provide a forum for the introduction and discussion of scientific topics which impact innovation, lifecycle management, and regulatory strategy. As with most journals, we are dependent on volunteers to serve as members of our editorial board, as well as scientific reviewers.

Contact Biologicals

Biologicals is **recruiting volunteers** with a **strong scientific** and/or **regulatory background** in the **development and/or lifecycle management of biological products**. We invite you to **join the Editorial Board** or contribute as a scientific reviewer of a dynamic and influential journal. If you are interested, please **contact** the Editor-in-Chief, **[Dr. Norman Baylor](#)**

IABS Partnerships

In order to maintain its independence and continue its mission of global access to care, IABS has set up ACTORS4HEALTH, a dedicated funding mechanism. This fund, supported by contributions from individuals and organizations, is overseen by an independent scientific committee that ensures the effective distribution of resources. With ACTORS4HEALTH, IABS is increasing its capacity to innovate and expand its influence, thus giving more people access to medical advances, while allowing donors from the European Union to benefit from a tax advantage.
